

Are you blocking prayer fulfillment, healing, miracles, synchronicity and purification of your karma?
This is why:

Change Your Life in 15-Seconds!

The human body is a temple for God to flow through.

Do you want prayer fulfillment, healing, miracles, synchronicity and purification of your karma?
Then do the following:

- Failing to forgive yourself.
- Failing to forgive others.
- If you hate or dislike yourself.
- Being lazy - lack of good actions or deeds (*karma*) - failing to strive!
- Staying in a busy state of mind all the time - failing to take a few minutes to be still.
- Failing to think of or pray for yourself and others.
- Complaining about anything and/or everything.
- Lying including small lies.
- Taking things small or large without permission - for example taking a pen from work makes you a thief, creating karma you do not want.
- Failing to be observant of your inner dialogue and failing to change your negative thoughts.

FLOWING

BLOCKED

FLOWING

Forgive yourself so that others may forgive you. Forgive others.

Love yourself so that others may love you fully.

Be a positive person of action for actions or deeds are karma. Make sure that you are striving!

Cultivate stillness and be ready to receive "*knowings*" that direct the next step on your journey.

Pray for yourself and others. When we have an expectation of an outcome, but we then attach an attitude of "*I don't mind what happens*", we disengage our attachment and allow the Grace of God to take over.

Be grateful for everything that happens, even the hard stuff. Do not force things in our own power. Surrender to God to take care of it.

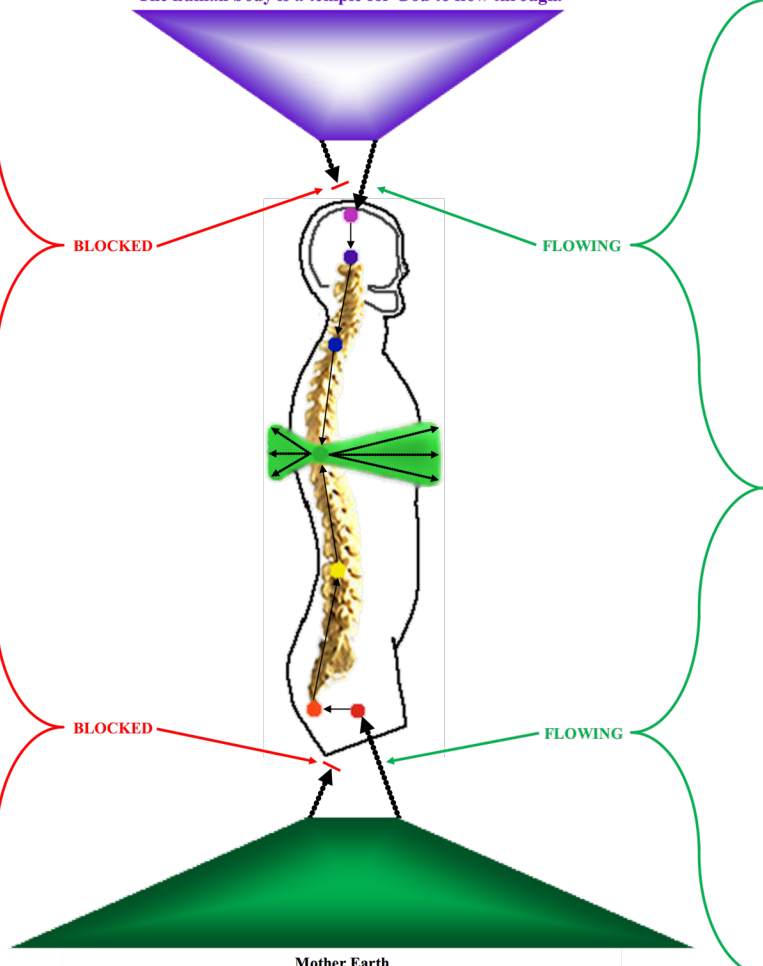

Tell the truth regardless of your fear-based thoughts regarding the outcome. Truth protects us, but only when we let go of the belief that it does otherwise.

Do not take anything without asking.

Do something creative regularly.

Be aware of your inner dialogue, for your thoughts are the key to changing your life in 15-seconds. Whenever you catch yourself doubting the flow of life or thinking or feeling anything less than average, shift your inner emotions to joyous emotions and repeat the following for 15-seconds:

I do not know how, where, when or why, but all in my life is working together for my positive prosperity and my highest good.
